**GT Foods**

# About Us

From a small poultry farm in Indianópolis (PR) to one of the largest chicken meat producers in Brazil. The history of GTFoods begins in 1992, with 3 entrepreneurs: José Borges, Rogério Gonçalves and Ciliomar Tortola, who brought to life the dream of bringing flavor and quality to the lives of Brazilians.

More than three decades later, GTFoods has conquered Brazil and the world. In addition to being among the six largest producers of chicken meat in Brazil, GTFoods is also among its 10 largest exporters, approved to ship chicken meat to more than 100 countries.

In the recent years, GTFoods has expanded its business and its presence in other areas, with emphasis on the starch-manufacturing segment, we are the largest cassava root crusher in Brazil. GT Foods has also invested in the production of carton packaging, always focusing on innovative production methods and high technology, all with the support and work of more than 10 thousand trained professionals.

In more than 30 years of history, our culture is a fundamental part of understanding who we are and where we want to go. GTFoods is made by people for people, which is why we value the human side so much in all our relationships.

Our culture is based on three pillars: Mission, Vision and Values. Together, they represent everything we believe and follow.

## Mission

To be reference in product quality, generating jobs and value for people and society, transforming the local reality with sustainability and commitment to health, safety and the environment.

## Vision

To be among the 3 largest (production and commercialization of fresh poultry) and best (profitability and quality) Brazilian companies in the poultry sector by 2030, with strong international operations and diversification in the food market.
